2. **Environmental Authorities:** National Environmental Act, National Historic Preservation Act, Archeological and Historic Preservation Act, Protection of Wetlands, Flood Plain Management, Farmland Protection Policy Act, Coastal Zone Management Act, Coastal Barriers Resources Act, Wild and Scenic Rivers Act, Endangered Species Act, Essential Fish Habitat and the Safe Drinking Water Act applicability will be determined upon submittal of an Environmental Information Document (EID) during the Engineering Report (ER) review process. Projects that do not involve construction (e.g., inventory only) are not required to prepare an ER/EID.
3. Acquisition of Real Property must comply with all applicable provisions of the Uniform Relocation and Real Property Acquisition Policies Act of 1970 (PL 92-646), as amended. The Applicant shall certify that it has or will have a fee simple or such other estate or interest in the site of the project, including necessary easements and rights-of-way, to assure undisturbed use and possession for the purpose of construction and operation for the estimated life of the project using a certification form provided by DEQ.
4. Specific MBE/WBE (DBE) forms and instructions are provided that are to be included in the contract specifications. These forms will assist with documenting positive efforts made by recipients, their consultants and contractors to utilize disadvantaged businesses enterprises. Such efforts should allow DBEs the maximum feasible opportunity to compete for sub agreements and subcontracts to be performed. Documentation of efforts made to utilize DBE firms must be maintained by all recipients, and construction contractors, and made available upon request.
5. Debarment and Suspension, Executive Order No. 12549: Subrecipients shall fully comply with Subpart C of 2 CFR Part 180 entitled, "Responsibilities of Participants Regarding Transactions Doing Business with Other Persons," as implemented and supplemented by 2 CFR Part 1532. Recipient is responsible for ensuring that any lower tier covered transaction, as described in Subpart B of 2 CFR Part 180, entitled "Covered Transactions," includes a term or condition requiring compliance with Subpart C. Recipient is responsible for further requiring the inclusion of a similar term or condition in any subsequent lower tier covered transactions. Subrecipients may access suspension and debarment information at: <http://www.sam.gov>. This system allows subrecipients to perform searches determining whether an entity or individual is excluded from receiving Federal assistance.
6. The construction contract requires the contractor to adhere to Davis-Bacon and Related Acts Provisions and Procedures as listed in the Code of Federal Regulations Chapter 29 Part 5 Section 5 (29 CFR 5.5). Public Law pertaining to this is also enacted in Title 40, United States Code, Subtitle II Section 3141 through Section 3148. Projects that do not involve construction (e.g., inventory only) are generally not subject to Davis-Bacon; however, special circumstances may trigger Davis-Bacon requirements.
7. Projects funded through the BIL DWSRF-LSLR funds are required to comply with the Federal Buy America, Buy America Act (BABAA). BABAA requires that iron, steel, manufactured products, and construction materials used in infrastructure projects are produced in the United States. Projects that do not involve construction (e.g., inventory only) are not subject to BABAA.
  - a. If your project qualifies for a BABAA waiver, American Iron & Steel (AIS) provisions will apply instead, as required by H.R. 3547, "Consolidated Appropriations Act, 2014" Section 436, Division G, Title IV. The State provides detailed requirements to be included in the construction contract specifications. Projects that do not involve construction (e.g., inventory only) are not subject to AIS.

8. Pursuant to 2 C.F.R. § 200.216, subrecipients cannot obligate SRF funds to: (1) procure or obtain; (2) extend or renew a contract to procure or obtain; or (3) enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that use covered telecommunications equipment or services (described in Public Law 115-232, Section 889) as a substantial or essential component of any system, or as a critical technology as part of any system.
