

**2017-2018
HIGHLIGHTS**

The members of the Fayetteville Fair Housing Board are honored to have been selected by the City Council to serve in a capacity as defined by the City's Fair Housing Ordinance. We are pleased to support an Ordinance that promotes Goal 4 of the City's Strategic Plan that strives to ensure that Fayetteville will be a highly "*desirable place to live, work and recreate.*" This presentation will provide a summary of activities and programs that highlight our efforts to address allegations of housing discrimination by our residents. This includes Board-sponsored outreach and training events that create greater awareness of the Ordinance and associated state and federal laws.

The Board thanks the City Council for approving the revision of the Fair Housing Ordinance which allows greater operational expediency and execution of the Ordinance. Additional thanks are extended to the Human Relations Department for its excellent staff support which played an important role in the accomplishment of many of our programs and objectives.

Again, thanks to the leadership of the City of Fayetteville for strongly endorsing and supporting our existence and mission.
