Notes:

1. A pre-application conference is mandatory prior to submission of an application for a map amendment.
2. Map amendment applications proposing re-classification from a Conservation (CD) zoning district to MR-5, OI, NC, LC, CC, MU, DT, LI, or HI require neighborhood meetings to be conducted prior to application submittal.
3. A map amendment application should be consistent with the comprehensive plan.
4. The City Council may not apply conditions of approval to a map amendment application.
5. All allowed uses within a proposed zoning district must be considered when considering a map amendment application, not just the particular use that the applicant is desiring to place on the property.
6. Applications seeking to "single out" a lot or site and applying for an exceptional zoning district designation may constitute illegal "spot zoning".
