Project Background & Purpose

Temporary Demonstration Project

Community-Designed

Smart Growth Grant

Transforms Streetscape With:

- Narrowed Traffic Lanes
- Greenery-Lined Median
- Bike Lanes
- Crosswalks

Entertainment (Music, Art, Food, Activities)

'Block Party with a Purpose'

Improves:

- Community Togetherness
- Safety
- Bike & Walkability
- Property Values
- Economy
 - Increased Foot Traffic \rightarrow Increased Sales and Exposure

Why Fayetteville?

- Fayetteville is **LAST** in the country in walkability
- Unsafe
 - Lack of Infrastructure
 - Excessive Speeding
 - Lots of Traffic
 - Narrow Sidewalks
- Plenty of Demand

Cities

141 cities we rate with a population of 200,000 or greater have an average Walk Score of 49.

Walk Score measures the walkability of any address based on the distance to nearby places and pedestrian friendliness.

Walker's Paradise
Daily errands do not require a car
Very Walkable
Most errands can be accomplished on foot
Somewhat Walkable
Some errands can be accomplished on foot
Car-Dependent
Most errands require a car
Car-Dependent
Almost all errands require a car

Living in Fayetteville

View Eavetreville anartments for rent

Walk Score

Fayetteville has an average Walk Score of 21 with 200 residents.

The most walkable Fayetteville neighborhoods are Die Terry Sanford and Westover.

Build A Better Haymount Event

March 10th, 2018

The Highlights

- Bike Lanes, Usable Crosswalks, A Plaza with Seating, A Greenery-Lined Median
- Food Trucks, Music, Art, Vendors, Face Painting, Magic, and More

<u>The Response</u>

Community:

• "This is a Safe, Family-Friendly Event, It Benefits the Community Overall"

Local Businesses:

- "We did really, really, really, really well"
- "The foot traffic into my business was awesome"

Bike/Ped Friendliness:

- "Felt Safer Walking and Biking in Town"
- "Let's Make These Crosswalks Really Happen"

The Event/Permanent Changes:

- "It Would Be Really Nice If This Event Continues On A Yearly Basis"
- "Move Forward with Permanent Changes"

More Bike-Friendly

Creating a Place for Everyone

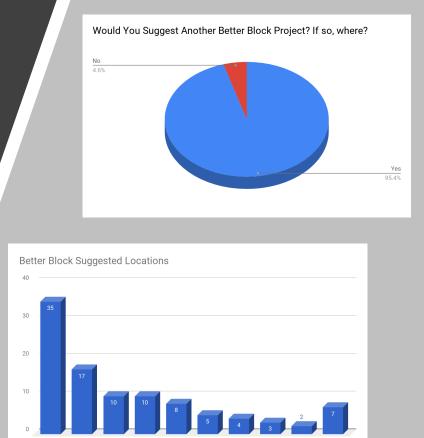

Official Event Video

Build A Better Murchison

Why Murchison?

Key Gateway into Downtown

🚹 He

Active Walking and Biking Community

Safety Concerns

Lack of Adequate Infrastructure

Insufficient Connectivity

Close Proximity to:

Mazarick Park, Cross Creek Trail, Future Site of New Senior Center, Segra Stadium

About the Project

- Half Day Demonstration
- To Occur on a Saturday
- Official Date: March 7, 2020

Key Feature of the Project

Fayetteville's First Ever Two Way Cycle Track Filter Plant Drive \rightarrow Langdon Street

https://www.youtube.com/watch?v=S 37ncM4_uCQ

Two Way Cycle Track

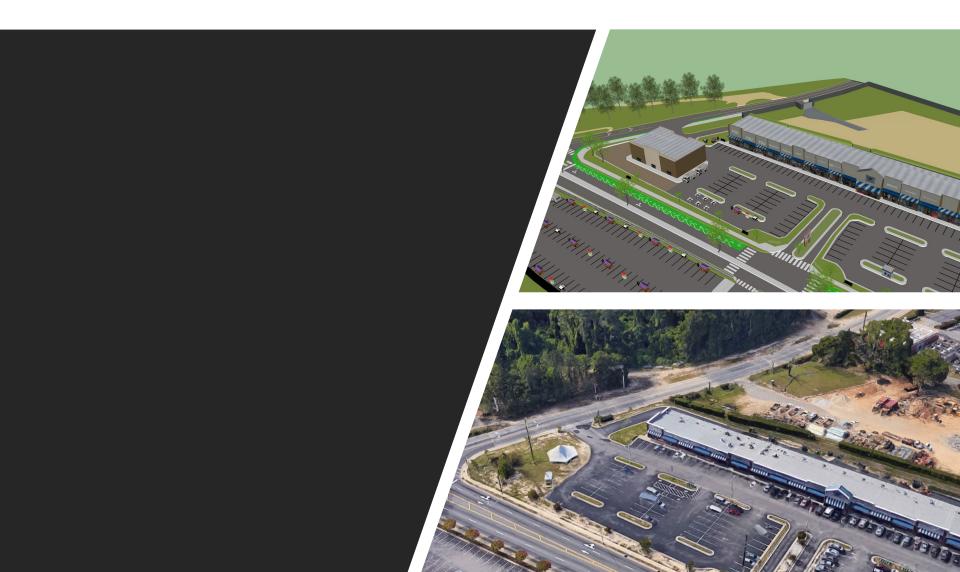

Other Features of the Project

New Crosswalks	Greenery- Lined Median	
Concert Area	Vendor/Artist Area	
Food Trucks	Café Areas	
Bike Racks	Benches	

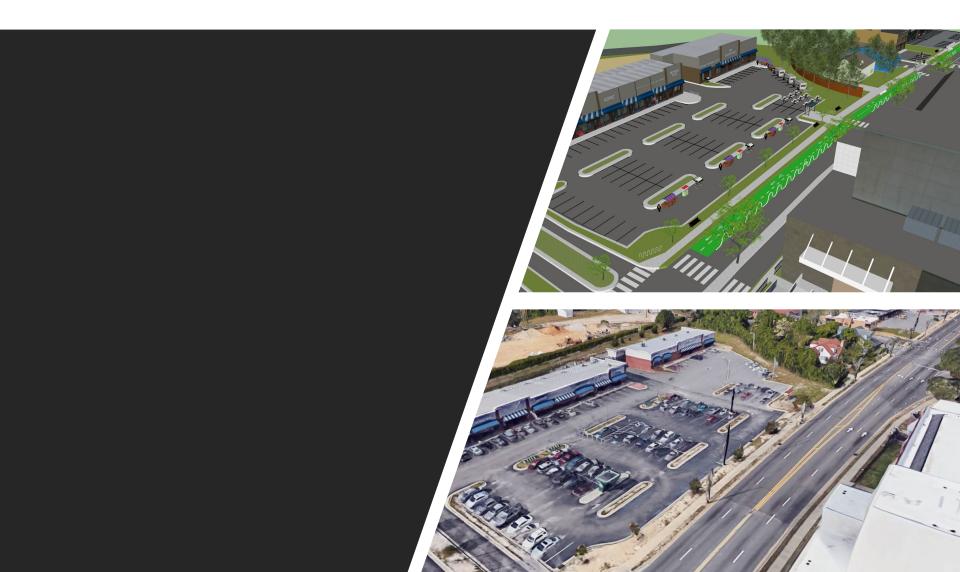

Concert Area with Seating

Bronco Plaza 1

Bronco Plaza 2

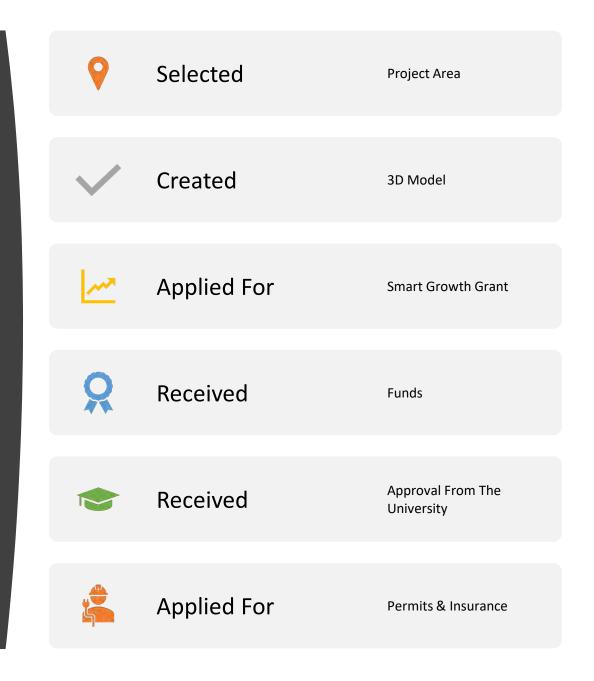

Seabrook Lot

Stormwater Program Overview

Stormwater Funding

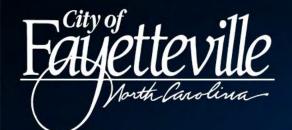

Stormwater Program

- Two Part Program
 - Quality
 - NPDES Permit
 - Quantity
 - Capital Improvement Program
 - Two (2) spot repair projects completed on Landau Road (\$138,000)
 - One potential future CIP Sunbury Drive \$2,000,000
 - Drainage Assistance Program
 - Spot Repair Program
 - Watershed Studies

Drainage Assistance Program

- Provides assistance for infrastructure repair on single family residential properties
 - Structural failures
 - Separated pipes
 - Situations requiring special equipment
 - Potential for flooding of public roadway due to system failure
- Detailed eligibility determined by an engineering investigation
- Residents can call the Stormwater hotline to make a request
 910-433-1240
- Currently 31 requests within District 3

Sidewalk Funding

Sidewalk Funding Opportunities

- City's Capital Improvement Program (CIP)
- City's Yearly Operating Budget
- Fayetteville Area System of Transit (FAST) Funding
- North Carolina Department of Transportation (NCDOT) Projects (50/50 on new)

Sidewalk Funding

Capital Improvement Program (CIP) Projects

Prior Years CIP Funded Sidewalk Projects in District 3

- Rosehill Rd East side Country Club Dr to Shaw Mill Rd (\$960k)
- Rosehill Rd East side Hickory Hill Rd to Ramsey St (\$308k)
 - Both projects scheduled to be constructed in FY 2020

FY 2021 – CIP Total Sidewalk Projects – \$1,158,000 (pending Council approval)

- District 3 Proposed Project
 - Yadkin Rd Both sides (gaps) Skibo Rd to Ft Bragg (\$100k, Design Only)
 - FY 2022 Construction (\$300k)

Completed Project

FY 2019 Completed Sidewalk Project in District 3

Santa Fe Dr – Yadkin Rd toward All American Expy (\$201k)

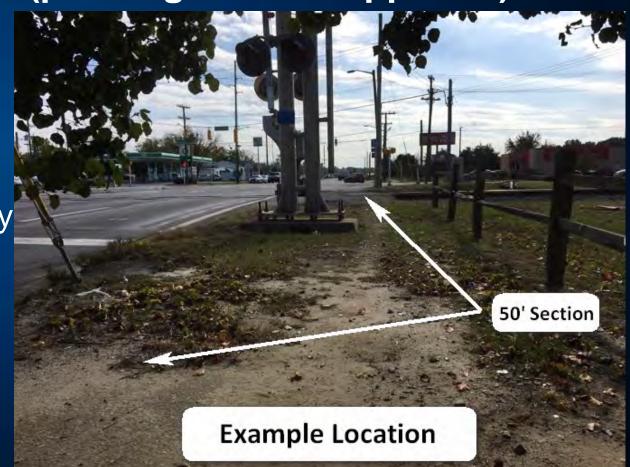

Sidewalk Funding

FY 2021 – Operating - \$25,000 (pending Council approval)

- Used at spot locations to fill in gaps or to connect to NCDOT Projects
- 500 600 Linear Feet installed annually
 - Approximately \$45/LF
- Example Location
 - 50 Linear Ft connection

Sidewalk Funding

Fayetteville Area System of Transit (FAST) Funding

- Sidewalk connections at bus stop installations for ADA Compliance
 - Yadkin Rd at Milford Rd, 400 LF

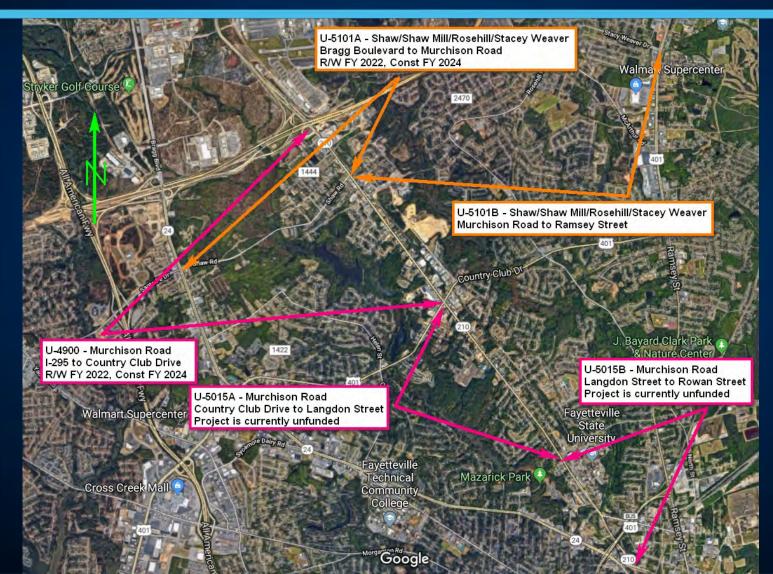

NCDOT Projects

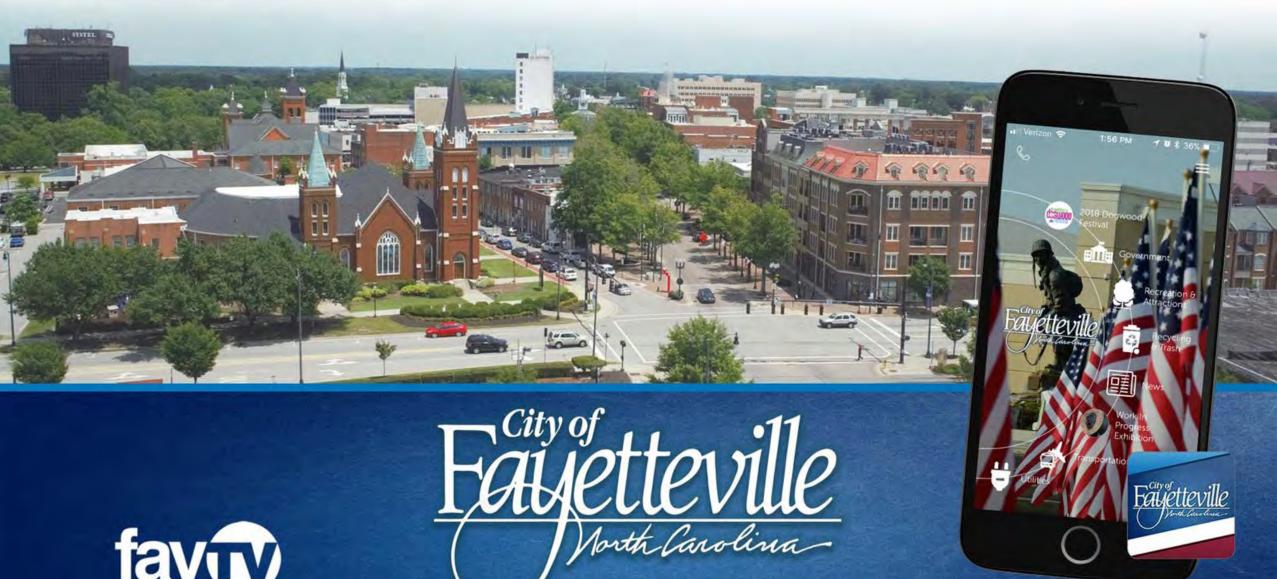

Funded NCDOT Projects in District 3

- U-5101A Shaw/Shaw Mill Rd Bragg Blvd to Murchison Rd (widening, sidewalks, landscaping)
 - Right of Way Acquisition FY 2022, Construction FY 2024
- U-4900 Murchison Rd Country Club Drive to I-295 (widening, sidewalks, landscaping)
 - Right of Way Acquisition FY 2022, Construction FY 2024

RESURFACING Pavement Preservation Program

Street System

City of Fayetteville = 95 sq mi Street System = 1,178 mi City = 744 mi - 63%NCDOT = 288 mi - 25%Private = 146 mi - 12%

City Maintained Streets: 744 Miles

Cost per mile \$225,000.00 to \$310,000.00 based on construction cost and traditional mill and overlay.

Paving cycles range between 45 to 60 years, not a good measure.

Methodology in Street Selection for Resurfacing

Pavement Condition Rating (ITRE Method). Streets Are Rated 0 to 100 (0 Being Worst, 100 Being Best):

Streets are selected based on their severity of distresses.

- Alligator Cracking most critical factor
- Block Cracking
- Longitudinal Cracking

Methodology in Street Selection for Resurfacing

Nuthatch Road PCR Value = 40-50

Cracking around area where asphalt is missing (thin asphalt)

Pothole with visible cracking

Methodology in Street Selection for Resurfacing

Charity Lane

PCR value = 50 - 60

Street Maintenance Program

City Preventive Maintenance Methods:

- Joint / Crack Seal
- Permanent Pavement Patch
 Although not aesthetically appealing this protects and increases the streets longevity.

Street Maintenance Program

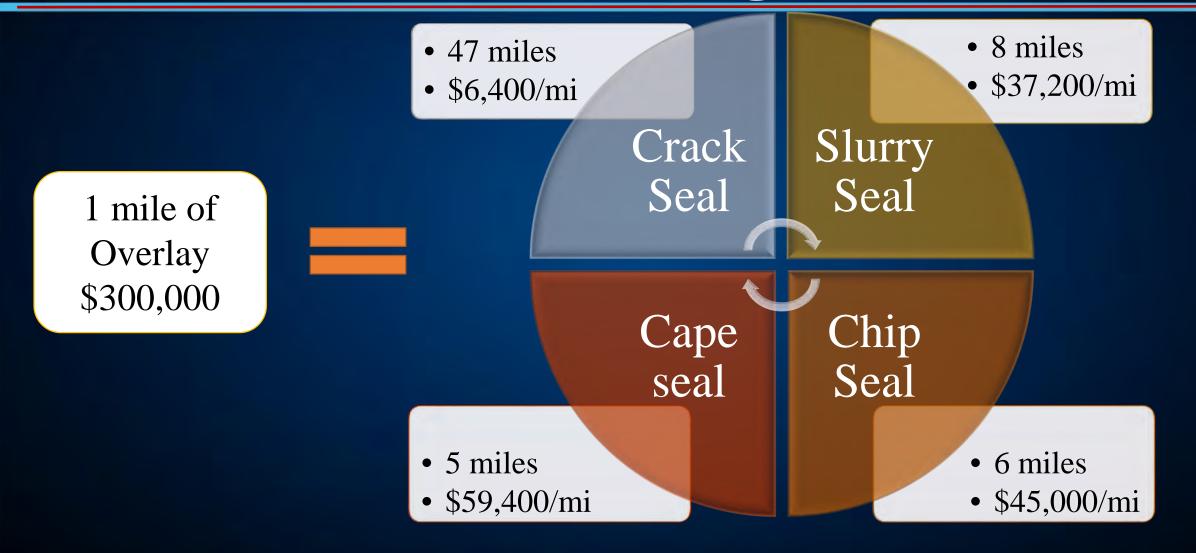

Pavement Performance Curve Cost

Pavement Age

Street Maintenance Program

Examples of Pavement Distresses

Alligator Cracking

Block Cracking

Longitudinal Cracking

Streets Currently Being Resurfaced in District 3

- Grafton Avenue
- Stubbs Street
- Packard Place

Streets are in resurfacing prep phase. What to expect.

Patching

Utility Adjustments

Resurfacing Complete

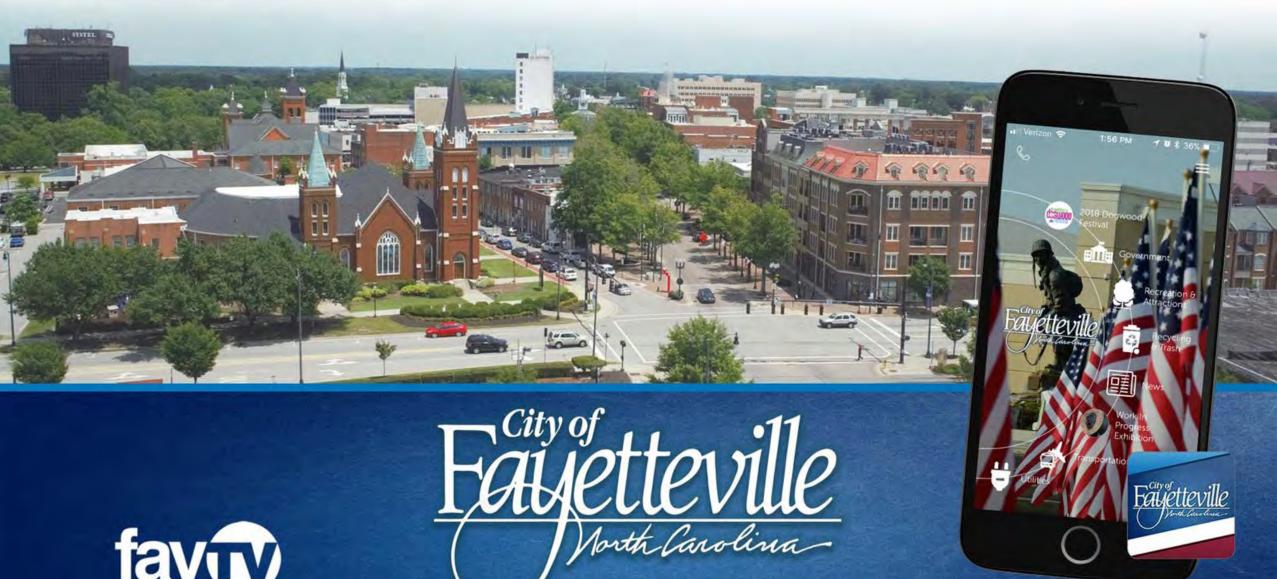

List of Streets Resurfaced (7.5 Miles) from 2010 to 2019 in District 3

Airedale Ct., Alpine St., Apricot Ct., Argon Ave., Baxter St., Bloomfield Dr., Bradley St., Chromium Ct., Cody St., Craft St., Danbury Rd., Diamond St., Dodge Dr., Foster Dr., Glenrock Dr., Gowan Ln., Kelburn Dr., Landau Rd., Lido St., Lionel Ln., Livingston Dr., Mercury Ct., Nickey Ave., Olympia Ct., Opal Ct., Peridot Ct., Plantation Rd., Randinita Dr., Regan St., Spinel Ct., Spinel Dr., Topeka St., W.
