

City Council Agenda Item Request

Date of Request: December 2, 2019 **Requester:** Council Member Waddell

Agenda Item Title: Infrastructure Bond Consideration

Estimated Cost: Unknown **Anticipated Funding Source:** Unknown

City Department(s) Support Requested: City Manager's Office, Public Services, & Budget and Evaluation

Estimated Staff Time Required: Unknown

Anticipated Date for Future Council Work Session Discussion: January 2020

Which City Council approved Goal(s) within the Strategic Plan does this request directly support?

Goal III (Objective D) and IV (Objective C)

What do you envision accomplishing with this agenda item request?

During a recent community meeting information was presented regarding street resurfacing and sidewalk installation. Our current schedule for street resurfacing is in excess of 30 years. We have miles of sidewalks throughout the city which need to be installed and streets in dire need of resurfacing. We have been discussing and have completed a priority schedule and while there has been some movement it largely surrounds DOT projects, PWC projects and other opportunities for collaborative funding. While this collaboration is smart and resourceful it does not bode well for the completion of this work in a timely fashion. My ask is that we direct staff to begin preparing some options for us to present to the voters regarding bonding packages specifically targeting our infrastructure repair and maintenance needs so that we can get ahead of our budgeting session and be prepared to act in a reasonable amount of time on the information provided. Attached you will see the sidewalk and street resurfacing presentation prepared for the community meeting in District 3 for your review.

Additional Comments:

Copies of the sidewalk presentation and street resurfacing presentation should be included in agenda for review by each Council Member prior to the work session.
