

The City of Fayetteville's first event self-curated Night Circus will be a contained space overflowing with roving carnival-like performances designed to delight all the senses. The atmosphere will be alive with lights and sound, and the air will be filled with the enticing scents emanating from popular food trucks. Attendees will be drawn into the circus by the rousing party rhythms of local DJs on the ones and twos. As the evening builds, we will reveal our headline – a national touring act– that will take the party to the next level of celebration.

Finally, as we transition from 2021 to 2022, the City will lift a large radiant star into the sky, that will be visible from a wide distance, especially once illuminated by a spectacular burst of fireworks, ringing in the New Year.

Mayor Colvin will serve as the ringmaster- Emceeing the event and welcoming the carnival goers.
